SUMMARY

Aspiring Full Stack Developer skilled in React.js, Node.js, JavaScript, Firebase, and REST APIs. Strong collaborator with hands-on experience in building responsive, scalable applications and solving real-world problems using modern web technologies.

EDUCATION

Masai School Full Stack Web Development	2024 – Present Bengaluru, Karnataka
Shree Chhatrapati Shivajiraje College of Engineering Bachelor of Engineering in Computer Engineering (CGPA: 7.41)	2019 – 2023 Pune, Maharashtra

SKILLS

Languages: JavaScript, Java, HTML, CSS, REST API

Frameworks: React.js, Node.js, Express.js, Tailwind CSS

Databases & Tools: MongoDB, MySQL, Firebase, Git, VS Code, Postman

Soft Skills: Problem-Solving, Teamwork, Adaptability, Communication

INTERNSHIP

Gsoft Solutions Pvt Ltd Full Stack Developer Intern	Jan 2024 – Jul 2024 Pune, Maharashtra
---	---

- Developed web app modules using Java, Spring Boot, React.js, JSP, and Servlets, including CRUD operations and authentication workflows.
- Built and optimized RESTful APIs with validation, exception handling, and efficient MySQL integration.
- Created reusable UI components in React and contributed to Agile sprints through debugging, testing, and deployments.

PROJECTS

DailyPulse – Habit Tracking Application — React.js, TypeScript, Vite, Tailwind 🐙 GitHub 🚀 Live

- Developed a habit-tracking app featuring mood insights, streak tracking, and analytics.
- Created a dashboard with interactive charts for category insights and performance trends.
- Integrated Firebase Authentication for secure login and cloud data sync.
- Built a fully responsive UI with smooth animations and dark/light mode.

VolunteerHub – Volunteer Management Platform — HTML, CSS, JS, Bootstrap, Firebase 🐙 GitHub 🚀 Live

- Developed a real-time platform connecting NGOs with volunteers.
- Used Firebase Authentication and Firestore for secure logins and live data updates.
- Built dashboards for activity tracking, opportunity listings, and applications.
- Improved user experience with filters, profile management, and clean UI flow.

Hospital Management System — Java, JSP, Servlets, MySQL 🐙 GitHub

- Created modules for patient registration, appointments, doctor allocations, and billing.
- Implemented authentication, CRUD operations, and form validation using JSP/Servlets.
- Designed optimized MySQL schemas ensuring efficient data handling and security.

Achievements & Certifications

Java Full Stack Certification – Giri's Tech Hub

Top 3 position in Masai Hackathon (in collaboration with NoBroker)
