SUMMARY

Aspiring Full Stack Developer skilled in React.js, Node.js, JavaScript, Firebase, and REST APIs. Strong in problem-solving, collaboration, and building user-friendly applications using modern web technologies.

EDUCATION

Masai School   **2024 – Present**
Full Stack Web Development   Bengaluru, Karnataka

Shree Chhatrapati Shivajiraje College of Engineering   **2019 – 2023**
Bachelor of Engineering in Computer Engineering (CGPA: 7.41)   Pune, Maharashtra

SKILLS

Languages: JavaScript, Java, HTML, CSS, REST API

Frameworks: React.js, Node.js, Express.js, Tailwind CSS

Databases & Tools: MongoDB, MySQL, Firebase, Git, VS Code, Postman

Soft Skills: Teamwork, Problem-Solving, Adaptability, Communication

PROJECTS

DailyPulse – Habit Tracking Application — React.js, TS, Vite, Tailwind   ◯ GitHub   ↗ Live

– Built a habit-tracking app with mood analytics, streaks, and personalized habit insights.
– Designed a dashboard using charts for mood, category insights, and weekly performance.
– Integrated Firebase authentication with cloud sync and secure access control.
– Implemented responsive UI with dark/light mode and smooth animations.

VolunteerHub – Volunteer Management Platform — HTML, CSS, JS, Bootstrap, Firebase ◯ GitHub   ↗ Live

– Developed an NGO–volunteer connection platform with real-time opportunity listings.
– Implemented Firebase Authentication and Firestore for dynamic data and secure access.
– Created dashboards for volunteers and admins to track activities and applications.
– Enhanced usability through filtering, profile management, and activity logs.

Hospital Management System — Java, JSP, Servlets, MySQL   ◯ GitHub

– Developed modules for patient registration, appointments, doctor allocation, and billing.
– Implemented authentication, CRUD operations, and form validations using JSP/Servlets.
– Designed efficient MySQL schemas ensuring secure medical data handling.

Academic Certificate Verification System — HTML, CSS, JSP, Servlets, MySQL   ◯ GitHub

– Built a certificate generation and verification system using unique IDs.
– Developed an admin panel for uploading student records and generating certificate IDs.
– Implemented real-time lookup with MySQL ensuring fast and accurate verification.

CERTIFICATIONS

Java Full Stack Certification – Giri's Tech Hub

EXTRACURRICULAR ACTIVITIES

– Achieved Top 3 position in a Masai Hackathon conducted in collaboration with NoBroker.
